1. Document Overview

1.1 Introduction

This document serves as the Software Test Plan for app "2 ט" version **v2-(41)12.6.0**.

The purpose of this STP is to define the framework and Strategy for the testing of "2 ט" app.

The plan is tailored to support the Agile Scrum methodology, emphasizing on flexibility, and iterative development.

Our objective is to validate the High Quality of "2 ט" app.

We will verify "2 ט" app behaves as expected by testing its features and functionality.

In alignment with Scrum principles, this document will try to stay as short and focused on Testing needs so it could be easily updated and evolve throughout project iterations.

1.2 Objectives

At a high level The primary objectives of this Software Test Plan for "2 ט" are as follows:

✓ Ensure Product Quality:

To uphold the high standards of quality for which "2 ט" is known, verifying that all features work as intended and meet user and business requirements.

✓ Enable Efficient Development Cycles:

To align testing activities with Scrum sprints, facilitating swift identification and resolution of defects, and supporting the development team in quick iterations.

✓ **Support Business Goals:**

To ensure that the testing process aligns with the overarching business objectives, contributing to the sustained success and growth of "2 ט".

1.3 Scope

- The scope of this document is only for version v2-(41)12.6.0 of "2 ט" app.
- This STP won't include the Test Planning and Test Execution of "2 ט" on the following OS: Linux, MacOS

2. Scope of Testing

2.1 Features to be tested

- פרסום
- הרשמה
- חיפוש
- שיתוף
- צור קשר

2.2 Features not to be tested

- דרגו אותנו
- משוב
- לאתר המונגש

2.3 Testing Types

Outlined below are the test types that will be planned and performed during this project:

- **Functionality Verification:**

To ensure all features of 2 יד, such as query input, search execution, Filters, and tabs, operate as intended across various platforms and devices.

- **Usability Assessment:**

To evaluate the user interface for intuitiveness, ease of use, and accessibility.

This includes ensuring the search page is easily navigable and that the interface elements are responsive to user interactions.

- **Compatibility Testing:**

To confirm that 2 T works seamlessly across different browsers (e.g., Chrome, Firefox, Safari, Edge), operating systems (Windows, macOS, Linux, Android, iOS), and devices (desktops, tablets, smartphones).

- **Localization and Internationalization Verification:**

To ensure that 2 T provides accurate results and a user-friendly experience in different languages and regions.

- **Search Result Accuracy:**

To validate the relevancy and accuracy of search results provided by the search algorithms. This includes testing the effectiveness of filters and the ranking of search results.

- **Smoke Testing**

- **User Interface Testing**

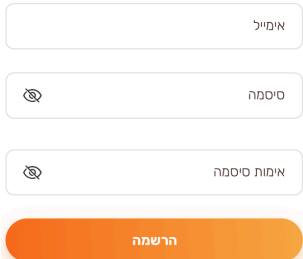

3. Smoke test for “יד 2”

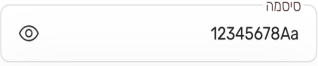

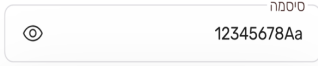

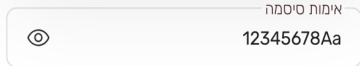

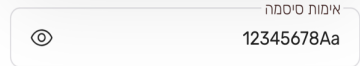

3.1 Test Description: Smoke test for “פרסום” + “הרשמה” on “יד 2” app

Test Purpose: Smoke test for “פרסום” + “הרשמה” option on “יד 2” app to see that they work properly without bugs	
Test Run Instructions:	
Test Run Information: Tester Name: Shay Date of Test: 09/04/2024	Prerequisites for this test: App: יד 2, Device: Iphone, Shay123@gmail.com אימייל: 0523456789 ,12345678Aa טלפון: ,סיסמה:
	Software Versions: Application: יד 2 Browser: Operating System: Apple IOS 17.4.1
	Required Configuration: [browser setup, security or user ID roles] No special setup needed
NOTES and RESULTS:	

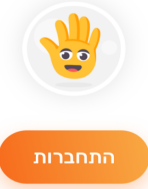

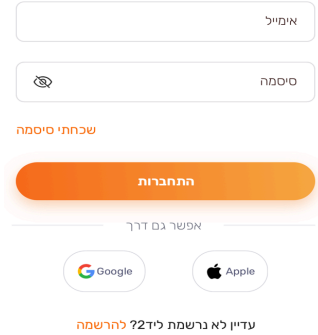

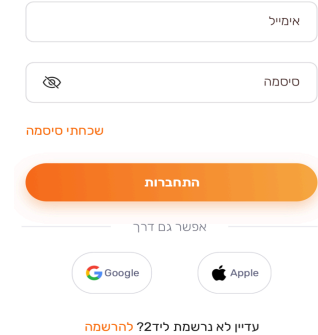

TEST SCRIPT STEPS/RESULTS				
Smoke test - “פרסום” + “הרשמה”				
STEP	TEST STEP/INPUT	EXPECTED RESULTS	ACTUAL RESULTS	PASS/FAIL
Smoke test - Functionality - “הרשמה”				

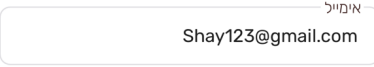

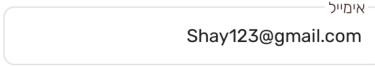

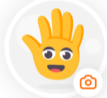

1.	Go to the app store on your iphone 	The app store will open	The app store opens	pass
2.	Click on  חיפוש 	The typing option will be enabled	The typing option has been enabled	pass
3.	Type "יד 2"	Typing will succeed 	Typing was successful 	pass
4.	Click on 	The app will show 	The app has showed 	pass
5.	Click on 	The app will download successfully	The application has been successfully downloaded	pass
6.	Open the "יד 2" app on your iphone 	"יד 2" app will open	"יד 2" app has opened	pass
7.	Go to  אזור אישי	The  אזור אישי will open	The  אזור אישי has opened	pass

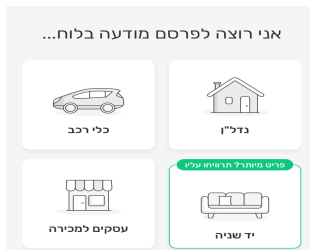

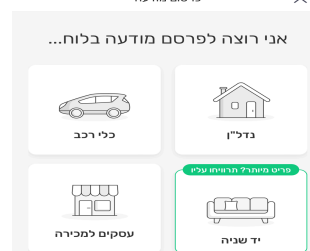

8.	  Click on	The login option will open 	The login option is opened 	pass
9.	עדיין לא נרשמת ליד? להרשמה Click on	The details creation panel will show 	The details creation panel has showed 	pass
10.	 Click on	The typing option will be enabled 	The typing option has been enabled 	pass
11.	Fill up "Shay123@gmail.com"	The field will be filled 	The field has been filled 	pass
12.	 Click on	The typing option will be enabled 	The typing option has been enabled 	pass

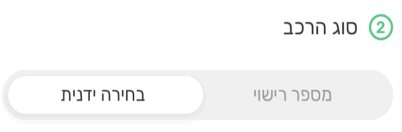

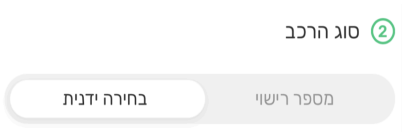

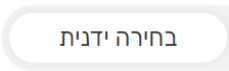

13.	Fill up "12345678Aa"	The field will be filled 	The field has been filled 	pass
14.	Click on 	The typing option will be enabled	The typing option has been enabled	pass
15.	Fill up "12345678Aa"	The field will be filled 	The field has been filled 	pass
16.	Check if the password is correct	A password confirmation will open הסיסמה מורכבת מ-8 עד 20 תווים ✓ הסיסמה מכילה אותיות באנגלית ומספרים ✓	Password confirmation opens הסיסמה מורכבת מ-8 עד 20 תווים ✓ הסיסמה מכילה אותיות באנגלית ומספרים ✓	pass
17.	Click on 	The verification code panel will open הזנת קוד אימות זה המקום למלא את הקוד שקיבלת באימייל 	The verification code panel has opened הזנת קוד אימות זה המקום למלא את הקוד שקיבלת באימייל 	pass
18.	Check if you received a code by email	The code will appear in the email "12345"	The code appeared in the email "12345"	pass
19.	Fill up "12345"	The field will be filled	The field has been filled	pass

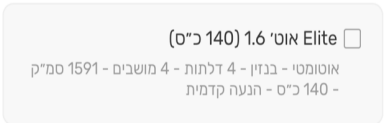

20.	Check if the next registration step opens	<p>The next registration step will open</p> <p>שם פרטי</p> <p>שם משפחה</p> <p>מספר טלפון</p> <p> <input type="checkbox"/> אני רוצה לקבל דיוור פרסומי כללי מיד2 <input type="checkbox"/> קראתי ואישרתי את תקנון האתר </p>	<p>The next registration step opens</p> <p>שם פרטי</p> <p>שם משפחה</p> <p>מספר טלפון</p> <p> <input type="checkbox"/> אני רוצה לקבל דיוור פרסומי כללי מיד2 <input type="checkbox"/> קראתי ואישרתי את תקנון האתר </p>	pass
21.	Click on <p>שם פרטי</p>	The typing option will be enabled	The typing option has been enabled	pass
22.	Fill up "שי"	<p>The field will be filled</p> <p>שם פרטי</p> <p>שי</p>	<p>The field has been filled</p> <p>שם פרטי</p> <p>שי</p>	pass
23.	Click on <p>שם משפחה</p>	The typing option will be enabled	The typing option has been enabled	pass
24.	Fill up "יונש"	<p>The field will be filled</p> <p>שם משפחה</p> <p>יונש</p>	<p>The field has been filled</p> <p>שם משפחה</p> <p>יונש</p>	pass
25.	Click on <p>מספר טלפון</p>	The typing option will be enabled	The typing option has been enabled	pass
26.	Fill up "0523456789"	<p>The field will be filled</p> <p>מספר טלפון</p> <p>0523456789</p>	<p>The field has been filled</p> <p>מספר טלפון</p> <p>0523456789</p>	pass

27.	<p>Click on <input type="checkbox"/> אני רוצה לקבל דיוור פרסומי כללי מיד2</p>	<p>The choice will be selected <input checked="" type="checkbox"/> אני רוצה לקבל דיוור פרסומי כללי מיד2</p>	<p>The choice has been selected <input checked="" type="checkbox"/> אני רוצה לקבל דיוור פרסומי כללי מיד2</p>	pass

Software Test Report

Software Test Report for “2 ט” app

Autor: Shay Yonash

Date: 14/04/2024

5.1 Test Summary

5.1.1 Scope of Testing:

The primary objective of was to ensure the functionality, usability, and compatibility of the “2 ט” app.

This included testing the following main Modules :

- פרסום
- הרשמה
- חיפוש
- שיתוף
- צור קשר

Modules that was planned to be tested but did not:

5.1.2 Testing Period:

The testing was conducted over two/One sprints, each lasting two weeks, from [09/04/2024] to [23/04/2024].

5.1.3 Testing Environment:

Tests were carried out on the “Testing environment” of the app, mirroring the production setup.

5.1.4 High-Level Results:

- A total of 15 test cases were executed:
with 15 passing, 0 failing, and 0 blocked due to dependencies.
- Major Open Issues included 1 critical open Bug In the payment system.
Dev Team informed that this bug will be fixed in 2 days from now.

5.2 Testing Activities

The Test Activities section details the comprehensive and methodical approach undertaken to evaluate the functionality, and user experience of the "2 T" app.

This phase involved a series of targeted tests types designed to rigorously assess each aspect of the website, ensuring reliability and quality from the user's perspective.

The following Testing Activities were performed in this sprint/s:

5.2.1 Smoke Tests

Over the course of the sprint, zero **(0) instances were identified where the smoke tests failed.**

5.2.2 Regression Test

during the regression testing phase, we encountered **1 significant** issue where the previously functional of the 'Reporting' feature ceased to function correctly after a recent update.

5.2.3 Functional Testing

all functional testing has been conducted, confirming that all features and modules are operating as intended.

5.2.4 User Interface Testing

Our user interface testing has confirmed that the overall user experience aligns with our company high standards.

However, we did observe a **few minor glitches** in the rendering of pages on mobile devices, particularly in certain browsers, which Development Team

are now working to fix in order to optimize a smoother mobile user experience."

5.2.5 Exploratory Testing

Approximately 15% of our testing efforts were devoted to Exploratory Testing.

No major bugs were found on this process.

5.2.6 Compatibility Testing

During our compatibility testing, **0 critical issues emerged:**

Firstly, the website was found to operate significantly slower on the Chrome Browser.

Secondly, a major compatibility issue was identified with iPhones, where the website failed to function properly.

5.2.7 Recovery Testing

Time constraints prevented us from conducting "Recovery Testing". we have to prioritize Recovery testing for the next sprint.

5.2.8 Security Testing

Unforeseen environmental issues within our testing setup prevented us from proceeding with Security Testing.

Resolving these environmental challenges should be handled by IT Team ASAP, so we can proceed with these important tests for the next sprint.

5.3 Results and Findings

This section presents the key outcomes of our testing efforts on "2 T" app.

Here, we will present the important **metrics** that will highlighting both the strengths and the areas needing attention. These Metrics will provide a comprehensive understanding of the current state of the website's functionality, usability, and overall performance.

5.3.1 Test Execution

- **Executed:** 15 test cases (100% of planned)
- **Passed:** 15 (100%), Failed: 0 (%), Blocked:0 (0%)

5.3.2 Defects Logged:

- **Total:** 0 defects (Critical: 0, High: 0, Medium: 0, Low: 0)
- Open: 0
- In Progress: 0
- Fixed: 0
- Closed: 0

5.3.3 Requirement coverage:

- 100% of the requirements covered

5.4 Open Issues, Risks and Go No Go

On this section we will present the unresolved critical issues and the potential risks that emerged during our testing process. In addition to that we will outline here our Go No Go recommendation on whether the current state of the website aligns with our quality standards and criteria for going on “Live to Production”.

5.4.1 Unresolved Issues:

5.4.1.1 Critical Payment System Bug:

Description: Confirmation emails not sent after bill payment.

Impact: High - Affects user confidence in successful transactions.

Current Status: Under investigation by the development team.

Risk: Could lead to increased customer support calls and dissatisfaction.

5.4.1.2 Performance Concerns:

Description: Occasionally users experience slight decrease in response time.

Impact: High - Affects user experience.

Current Status: Waiting for investigation by the development team.

Risk: Could lead to customer support calls and dissatisfaction.

5.4.1.3 Mobile Responsiveness:

Description: UI misalignments on mobile devices in landscape mode.

Impact: High - Affects user experience on Mobile.

Current Status: Scheduled for UI design review.

5.4.1.4 Go No Go Recommendation:

After thorough analysis and considering all test results, we recommend a 'Go' decision for the release of the “2 T” app.

Our testing experience indicates that the system is quite stable and performs well overall.

We acknowledge the presence of open issues and propose releasing them as known issues to the end-users, with a commitment to addressing them as soon as possible through immediate hotfixes."
